

FAHMI ADAM GIBRANANTO

6285156283463 | fahmi.gibrananto@gmail.com | <https://www.linkedin.com/in/fahmi-adam-gibrananto/>
Pondok Petir, Bojongsari, Depok, West Java

I am a graduate of the Animal Science Bachelor's program and a participant in the Fast Track Master's program at Brawijaya University. I completed my bachelor's degree in four years (2020–2024) and continued with a two-year accelerated master's program (2023–2025), focusing on the socioeconomics of animal husbandry. I have a strong academic background, practical experience in animal husbandry, and exposure to research, supported by active involvement in organizations and professional training.

Education Level

Universitas Brawijaya - Malang, Indonesia <i>Bachelor of Animal Science, 3.67/4.00</i> <i>Development Strategy of Broiler Farming Business CV. Dunia Makmur Sejahtera in Oro Oro Ombo Village, Batu City.</i>	Sep 2020 - Aug 2024
Universitas Brawijaya - Malang, Indonesia <i>Master of Animal Science, 3.96/4.00</i> <i>Production Elasticity of Broiler Farming Partnership Pattern in Malang Regency (Case Study of CV. Dunia Makmur Sejahtera).</i>	Sep 2023 - Jul 2025

Work Experiences

Rifai Farm - Ngantang, Malang Regency, East Java <i>Operations Staff Intern</i> This company is a smallholder dairy farm located in Ngantang, East Java, specializing in dairy cattle farming. The primary output of this business is the production of fresh milk from dairy cows raised using traditional yet well-managed farming methods. The fresh milk produced is then distributed to consumers in the Malang city area and its surroundings, making this farm play a crucial role in meeting the local community's milk consumption needs. - Feeding and drinking - Milking cows regularly, performed twice a day. - Cleaning the cage regularly to maintain hygiene and prevent disease. Assisting in the process of birth of cattle. - Monitoring the health of cows daily and reporting signs of illness or injury to the administrator or veterinarian.	Jan 2022 - Feb 2022
CV. Adi Indah - Nglegok, Blitar, East Java <i>Operations Staff Intern</i> Duck egg production with a maximum population capacity of 10.000 ducks. The population managed was around 7.000 laying ducks during the internship period. The maintenance system was carried out in 13 battery cages and 5 open cages, supporting productivity and efficiency in maintenance management. From this population, the company is able to produce daily egg production ranging from 4,500–5,000 eggs per day. In terms of feed management, the farm implements a self-mixing system, where feed is formulated and produced independently. The production capacity of the self-mixing feed system reaches approximately 1,100–1,200 kg per day, adjusted to meet the population's needs to support optimal production performance. - Regularly clean the duck house of feces, feed residue, and other waste. - Ensure that feed and water containers are always clean and not waterlogged. - Directly involved in producing our own feed (self mixing feed) with a capacity of $\pm$1,100–1,200 kg/day, adjusted to the needs of the population. - Studying and applying feed ingredient composition (soybean meal, corn, fish bones, reddening agents, etc.) and understanding the supply-demand dynamics of feed raw materials to support cost efficiency and productivity. - Checking the health of the ducks regularly and reporting any ducks that appear sick or inactive. Collecting duck eggs daily. - Recording the number of eggs produced, the amount of feed used, and the health condition of the ducks.	Jul 2023 - Aug 2023
CV. Dunia Makmur Sejahtera - Sawojajar, Malang, East Java <i>Technical Support</i> This company is an independent partnership engaged in the provision of livestock production facilities (sapronak), such as chicks (DOC), feed, medicines, and livestock equipment. The business model implemented is a plasma-core partnership system, where the company acts as the core party providing sapronak and providing technical assistance, while the plasma partners are responsible for maintenance and production. Currently, the company has an extensive partnership network with around 80 plasma farmers spread across Malang Regency. Through this system, the company not only supports the sustainability of smallholder farmers' businesses but also contributes to maintaining the supply chain and stability of poultry production in the region. - Conducting field visits to approximately 75 partner farmers spread across Malang Regency to provide technical assistance and performance evaluations. - Studying broiler feed composition and reviewing the effects of formulation on production performance and cost efficiency.	Aug 2023 - May 2025

- Overseeing the distribution and use of feed to ensure it meets requirements and quality standards.
- Identifying technical issues or diseases in the field and providing solutions and coordinating follow-up actions.
- Checking the production performance of plasma farmers to ensure it meets company standards
- Conducting training and education sessions on farming technology, biosecurity, and productivity improvement.
- Compiling reports on production progress and livestock health, and providing recommendations for management evaluation.

Organizational Experience

HIMATA Malang - Malang, East Java

Dec 2020 - Mar 2022

Event Division

HIMATA (Tangerang Student Association) Malang is a regional organization that accommodates students from Tangerang who are studying in Malang. This organization aims to strengthen the bonds of friendship among Tangerang students, build a sense of family, and serve as a forum for self-development through various social, cultural, and youth activities. As part of the events division, I have been involved in designing, organizing, and implementing various internal and external events to enhance solidarity and the contributions of Tangerang students in Malang. I contributed to the futsal tournament event as follows:

- Designing the concept and technical implementation of the futsal tournament, including the competition format, knockout/elimination system, and match rules.
- Preparing an activity proposal that includes the budget, schedule, equipment requirements, and tournament location. Organizing.
- Establishing the structure of the organizing committee and systematically assigning tasks, such as equipment, referees, documentation, and catering.
- Coordinating with internal and external parties, including venue managers, sponsors, and participating teams. Actuating:
- Conducting the tournament according to the schedule, ensuring that all technical aspects (field, equipment, referees) run smoothly.
- Actively ensuring smooth communication among committee members throughout the event. Controlling (Monitoring and Evaluation).
- Monitoring the progress of the matches and addressing any issues promptly and effectively on-site.
- Evaluating the event's success in terms of participation, technical smoothness, and participant satisfaction, and preparing a final activity report.

UASB UB - Malang, East Java

Aug 2021 - Apr 2023

Futsal Player

The Brawijaya Football Activity Unit (UASB) is a student organization at Brawijaya University that focuses on developing students' interests and talents in the field of soccer. UASB serves as a platform for students who are passionate about soccer, whether in terms of athlete development, team management, or fostering sportsmanship.

- Contributed as a futsal player in the Football Activity Unit (UASB) of Brawijaya University and successfully represented the university in the East Java Provincial Student Sports Week (POMPROV) event.

Skills, Achievements & Other Experience

- **Certification - Badan Nasional Sertifikasi Profesi (BNSP)** (2024): Broiler Farm Operator
- **Vacational Training Program - Balai Latihan Kerja Wonojati Malang** (2024): Program Broiler Farming for 180 Training Hours
- **TOEFL ITP - Brawijaya Language Center** (2023): Achieved TOEFL Test Scores 573
- **Hard Skills:** Production Management, Procurement Management, Logistic Management, Occupational Health and Safety Procedures, Poultry Management, Dairy Management, Broiler Management, Perfrom Vaccination Program, Perform Biosecurity Program
- **Soft Skills:** Analytical Thingking, Critical Thingking, Problem Solving, Attention to Detail, Time Management, Communication, Adaptability, Teamwork, Decision Making, Research Ethic & Professionalism, Planing, Organizing, Actuating, Controlling.
